What is “One and Done”?

A workflow where Mozilla Community Contributors can pick tasks and work on them - one at a time, one day at a time - and feel good about doing them.
Area of Interest

• Find an area of your interest from among the many projects at Mozilla QA.

**Desktop Firefox**
We test Desktop Firefox for new features and resolved issues before release. Help us hunt down bugs!

**Mobile Firefox**
We test Firefox for Android to ensure web content is viewable, acceptable and ready for consumption.

**Firefox OS**
We test Firefox OS, a new mobile operating system, and Marketplace, that offers apps.

**Web QA**
We ensure that all Mozilla websites are high quality, secure, and user friendly.

**Services**
We aim to improve the quality of Firefox, desktop and mobile. We also test all Mozilla Labs projects.

**Automation**
We build automated tests to run against Mozilla websites to make sure they are working as expected.

**Thunderbird**
We test the Thunderbird mail client for resolved issues before release.
