

## S593: Async Scrollbar

### 1. Scrolling

#### C22436: Fast scrolling up and down

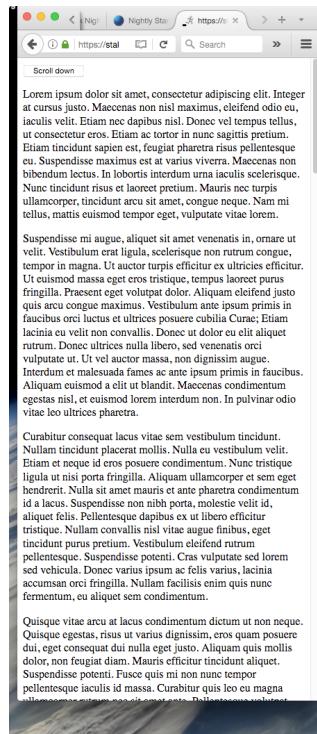

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

#### Preconditions

The apz.drag.enabled preference needs to be enabled. On Nightly this is enabled

#### Steps

Step	Expected Result
1 Open FF and go to:  <a href="https://staktrace.com/resources/extras/spout scroll-behavior.html">https://staktrace.com/resources/extras/spout_scroll-behavior.html</a>  <a href="https://archive.mozilla.org/pub/firefox/tinderbox-builds/mozilla-inbound-linux-debug/1482891457/mozilla-inbound_ubuntu32_vm-debug_test-gtest-bm07-tests1-linux32-build277.txt.gz">https://archive.mozilla.org/pub/firefox/tinderbox-builds/mozilla-inbound-linux-debug/1482891457/mozilla-inbound_ubuntu32_vm-debug_test-gtest-bm07-tests1-linux32-build277.txt.gz</a>	The page is opened.
2 Reduce the browser window size	You have the same window size like in the attached picture.

3

Drag the scrollbar and move it fast up and down.

The text is properly displayed, without any delay.

4

On the top of the text and on the bottom of it, you have 2 buttons: scroll down and scroll up  
Click on them

The text is properly displayed, without any delay.

## C22419: Click on the scrollbar (gdocs)

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

### Preconditions

The apz.drag.enabled preference needs to be enabled. On Nightly this is enabled

### Steps

Step	Expected Result
1 Open FF and go to <a href="https://docs.google.com/spreadsheets/d/1VCk6LAJ9g-EI9e61cDzoysHahMU6wc3Qo2bPvau6frY/edit#gid=0">https://docs.google.com/spreadsheets/d/1VCk6LAJ9g-EI9e61cDzoysHahMU6wc3Qo2bPvau6frY/edit#gid=0</a>	Page is open.
2 Click (press click continuously) in the middle of the scrollbar from the bottom of the window.	Scrollbar stops right where the mouse pointer is.
3 Click (press click continuously) in the middle of the scrollbar from the right side of the window.	Scrollbar stops right where the mouse pointer is.

## C22421: Scroll on Google Docs.

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

### Preconditions

The apz.drag.enabled preference needs to be enabled. On Nightly this is enabled

### Steps

Step	Expected Result
1 Open Firefox and go to <a href="https://docs.google.com/spreadsheets/d/1VCk6LAJ9g-El9e61cDzoysHahMU6wc3Qo2bPvau6frY/edit#gid=0">https://docs.google.com/spreadsheets/d/1VCk6LAJ9g-El9e61cDzoysHahMU6wc3Qo2bPvau6frY/edit#gid=0</a>	The Google Spreadsheet is opened.
2 Using the vertical scroll bar, scroll up and down using the mouse wheel.	The scrolling is smooth, without any jerkiness or rendering issues
3 Using the horizontal scroll bar, scroll left and right by dragging the scroll bar.	The scrolling is smooth, without any jerkiness or rendering issues

## C22439: Scrolls work properly on Facebook

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			
No			

### Steps

Step	Expected Result
1 Open Firefox and go to facebook.com	Facebook.com is opened.
2 Scroll up and down on all frames that contain scrollbar. (chat list, friends activity list, messenger)	The scrolling is smooth, without any jerkiness or rendering issues.
3 Click on the scroll bar on all frames presented in step 2.	The scrollbar stops where the pointer is located at.

## C22870: Pages with Flash

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

### Steps

Step	Expected Result
1 Open Firefox and visit:  <a href="http://edition.cnn.com/">http://edition.cnn.com/</a> <a href="http://www.zapdramatic.com/">http://www.zapdramatic.com/</a> <a href="http://www.makers.com/">http://www.makers.com/</a>	The pages are correctly loaded.
2 Try to scroll up and down, the page, using the scrollbar.	Scrolling is smooth, there are no rendering issues.
3 Increase the browser zoom level and continue scrolling.	Zoom level is increased smoothly, there are no rendering issues, scrolling continues to be smooth.
4 Decrease the browser zoom level and continue scrolling.	Zoom level is decreased smoothly, there are no rendering issues, scrolling continues to be smooth.

## C22866: Pages with SVG

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

### Steps

Step	Expected Result
1 Open Firefox and go to: <a href="http://museumofwifi.com/">http://museumofwifi.com/</a> <a href="https://campaigns.f-secure.com/freedome/takecontrol/en_UK/">https://campaigns.f-secure.com/freedome/takecontrol/en_UK/</a> <a href="http://www.playmag.fr/heroesoftomorrow">http://www.playmag.fr/heroesoftomorrow</a> <a href="https://wetelo.com/">https://wetelo.com/</a>	Each site is opened correctly.
2 Try to scroll up and down, the page, using the scrollbar.	Scrolling is smooth, there are no rendering issues.
3 Use the Menu to increase the zoom level and continue scrolling.	Zoom level is increased smoothly, there are no rendering issues, scrolling continues to be smooth.
4 Use the Menu to decrease the zoom level and continue scrolling.	Zoom level is decreased smoothly, there are no rendering issues, scrolling continues to be smooth.

## C22871: Website providing video content

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			
No			

### Steps

Step	Expected Result
1 Launch Firefox.	Firefox is successfully launched.
2 Go to the following web pages: www.cnn.com www.bbc.com <a href="https://gaming.youtube.com/watch?v=gCISR0T3grE">https://gaming.youtube.com/watch?v=gCISR0T3grE</a>	The websites are successfully loaded.
3 Scroll up and down using the mouse wheel.	The scrolling is smooth, without any rendering issues.

## C22935: Scroll on long web pages

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			
No			

### Steps

Step	Expected Result
1 Open Firefox and go to <a href="https://en.wikipedia.org/wiki/Google">https://en.wikipedia.org/wiki/Google</a>	The web page is opened.
2 Scroll up and down using the scroll wheel.	The scrolling is smooth, without any jerkiness or rendering issues.

## C23000: Drag all the way vertically(make sure that is not a regression - bug 1249710)

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			
No			

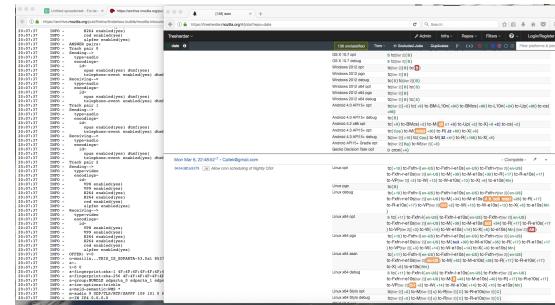

### Steps

Step	Expected Result
1 Open Firefox and go to <a href="https://github.com/mozilla/rr/issues/1652">https://github.com/mozilla/rr/issues/1652</a>	The site is opened.
2 Drag the horizontal scrollbar from the first comment.	Make sure that the scrollbar it wouldn't go all the way to the end.

## C23603: 2 Windows

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			
No			

### Steps

Step	Expected Result
1 Open Firefox.	Firefox is open.
2 Open 2 browser windows and past in the URL bar this: <a href="https://treeherder.mozilla.org/#/jobs?repo=date">https://treeherder.mozilla.org/#/jobs?repo=date</a>	The page is open in both windows without any issues.
3 Arrange the windows like in this picture.	
4 Move the pointer over each window and use the scroll wheel.	Depends on which window the pointer is, the scroll is working.

## C23607: PDF file

<b>Type</b> Other	<b>Priority</b> Medium	<b>Estimate</b> None	<b>References</b> None
<b>Automatable</b> No			

### Steps

	<b>Step</b>	<b>Expected Result</b>
1	Launch Firefox.	Firefox is successfully launched.
2	Go to <a href="http://conorlastowka.com/book/CitationNeededBook-Sample.pdf">http://conorlastowka.com/book/CitationNeededBook-Sample.pdf</a>	The website is successfully loaded.
3	Scroll up and down using the mouse wheel, scroll bar.	The scrolling is smooth, without any jerkiness or rendering issues.
4		

## C23633: Scrollbar in "about:preferences" bug 1344339

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

### Steps

Step	Expected Result
1 Open Firefox and visit this sites:  <a href="http://html5demos.com/offlineapp">http://html5demos.com/offlineapp</a> <a href="http://appcache-demo.s3-website-us-east-1.amazonaws.com/with-network/">http://appcache-demo.s3-website-us-east-1.amazonaws.com/with-network/</a> <a href="http://www.spritecow.com/">http://www.spritecow.com/</a> <a href="http://everytimezone.com/">http://everytimezone.com/</a> <a href="http://web.telegram.org/">http://web.telegram.org/</a> <a href="http://lagged.com/play/501/">http://lagged.com/play/501/</a>	You visited all sites.
2 In the URL bar type: about:preferences#advanced	about:preferences#advanced is opened.
3 Choose Network	In the "Offline Web Content and User Data" section, you see all the sites visited in step 1 and a scrollbar.
4 Click the scrollbar and drag it slowly, then use the mouse wheel for scrolling in the opposite direction.	The scroll is working.

## C23666: Zoom in or out

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

### Steps

Step	Expected Result
1 Open Firefox and go to <a href="https://staktrace.com/resources/extras/spout/scroll-behavior.html">https://staktrace.com/resources/extras/spout/scroll-behavior.html</a>	The page is loaded.
2 Using the ctrl/cmd + mouse wheel zoom in or out the page.	The page is zoomed in or out.
3 Set the browser zoom to 300% and click on the middle of the scrollbar.	The page starts to scroll down in a smooth way.
4	

## C24212: Drag the scrollbar (bug 1346632)

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			
No			

### Steps

Step	Expected Result
1 Open Firefox.	Firefox is opened.
2 Go and visit: <a href="http://rotana.net/contact-us/">http://rotana.net/contact-us/</a> <a href="https://bug1346632.bmoattachments.org/attachment.cgi?id=8846410">https://bug1346632.bmoattachments.org/attachment.cgi?id=8846410</a>	Sites are loaded.
3 Click and drag the scrollbar up and down.	The scrollbar can be dragged.

## 2. Finger Only - Touching screen

### C22415: Fast scrolling up and down

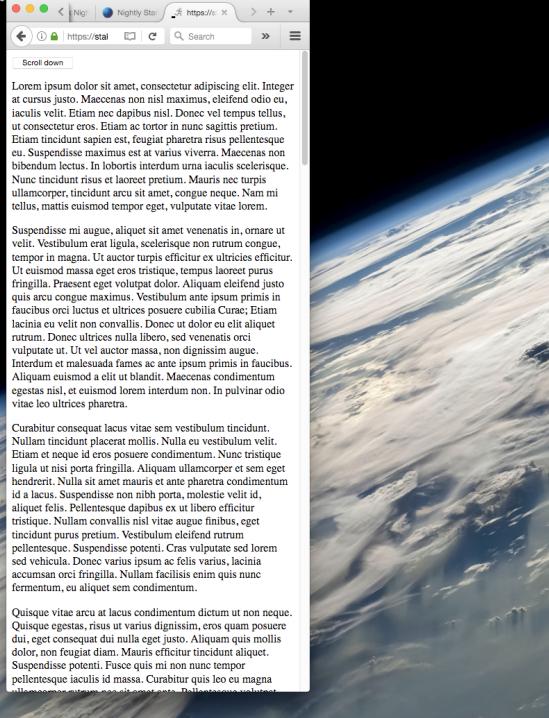

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

No

#### Preconditions

The apz.drag.enabled preference needs to be enabled. On Nightly this is enabled

#### Steps

Step	Expected Result
1 Open FF and go to <a href="https://staktrace.com/resources/extras/spout/scroll-behavior.html">https://staktrace.com/resources/extras/spout/scroll-behavior.html</a>	The page is opened.
2 Reduce the browser window size	You have the same window size like in the attached picture. 

---

3

Drag the scrollbar and move it fast up and down.

The text is properly displayed, without any delay.

---

4

On the top of the text and on the bottom of it, you have 2 buttons: scroll down and scroll up  
Click on them

The text is properly displayed, without any delay.

## C22435: Drag the scrollbar

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

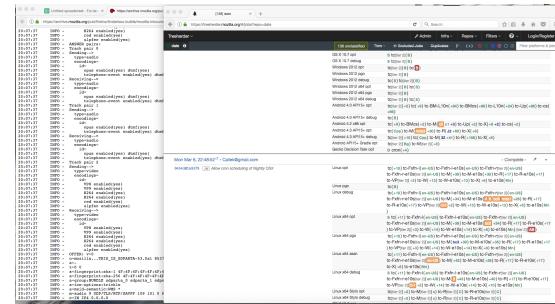

### Steps

	Step	Expected Result
1	Open FF and load a Mana Confluence page, such as <a href="https://mana.mozilla.org/wiki/display/PM/Quantum+Program">https://mana.mozilla.org/wiki/display/PM/Quantum+Program</a>	Mana page is opened.
2	Click the "Edit" link at the top of the page.	
3	Try to click and drag the page's scrollbar using your thumb.	The scroll bar thumb's color changes on mouse over, you can click and drag it.

## C23604: 2 Windows

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			
No			

### Steps

Step	Expected Result
1 Open Firefox.	Firefox is open.
2 Open 2 browser windows and past in the URL bar this: <a href="https://treeherder.mozilla.org/#/jobs?repo=date">https://treeherder.mozilla.org/#/jobs?repo=date</a>	The page is open in both windows without any issues.
3 Arrange the windows like in this picture.	
4 Move the pointer over each window and use the scroll wheel.	Depends on which window the pointer is, the scroll is working.

## C23605: Scrolls work properly on Facebook

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			
No			

### Steps

Step	Expected Result
1 Open Firefox and go to facebook.com	Facebook.com is opened.
2 Scroll up and down on all frames that contain scrollbar. (chat list, friends activity list, messenger)	The scrolling is smooth, without any jerkiness or rendering issues.
3 Click on the scroll bar on all frames presented in step 2.	The scrollbar stops where the pointer is located at.

## C24191: Pages with Flash

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

### Steps

Step	Expected Result
1 Open Firefox and visit:  <a href="http://edition.cnn.com/">http://edition.cnn.com/</a> <a href="http://www.zapdramatic.com/">http://www.zapdramatic.com/</a>	The pages are correctly loaded.
2 Try to scroll up and down, the page, using the scrollbar.	Scrolling is smooth, there are no rendering issues.
3 Increase the browser zoom level and continue scrolling.	Zoom level is increased smoothly, there are no rendering issues, scrolling continues to be smooth.
4 Decrease the browser zoom level and continue scrolling.	Zoom level is decreased smoothly, there are no rendering issues, scrolling continues to be smooth.

## C22629: Pages with SVG

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

### Steps

Step	Expected Result
1 Open Firefox and go to: <a href="http://museumofwifi.com/">http://museumofwifi.com/</a> <a href="https://campaigns.f-secure.com/freedome/takecontrol/en_UK/">https://campaigns.f-secure.com/freedome/takecontrol/en_UK/</a> <a href="http://www.playmag.fr/heroesoftomorrow">http://www.playmag.fr/heroesoftomorrow</a> <a href="https://wetelo.com/">https://wetelo.com/</a>	Each site is opened correctly.
2 Try to scroll up and down, the page, using the finger.	Scrolling is smooth, there are no rendering issues.
3 Use the Menu to increase the zoom level and continue scrolling.	Zoom level is increased smoothly, there are no rendering issues, scrolling continues to be smooth.
4 Decrease the browser zoom level and continue scrolling.	Zoom level is decreased smoothly, there are no rendering issues, scrolling continues to be smooth.

## C23606: PDF file

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			
No			

### Steps

	Step	Expected Result
1	Launch Firefox.	Firefox is successfully launched.
2	Go to <a href="http://conorlastowka.com/book/CitationNeededBook-Sample.pdf">http://conorlastowka.com/book/CitationNeededBook-Sample.pdf</a>	The website is successfully loaded.
3	Scroll up and down using the finger.	The scrolling is smooth, without any jerkiness or rendering issues.
4		

## C23610: Scroll on Google Docs.

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

### Preconditions

The apz.drag.enabled preference needs to be enabled. On Nightly this is enabled

### Steps

Step	Expected Result
1 Open Firefox and go to <a href="https://docs.google.com/spreadsheets/d/1VCk6LAJ9g-El9e61cDzoysHahMU6wc3Qo2bPvau6frY/edit#gid=0">https://docs.google.com/spreadsheets/d/1VCk6LAJ9g-El9e61cDzoysHahMU6wc3Qo2bPvau6frY/edit#gid=0</a>	The Google Spreadsheet is opened.
2 Using your finger scroll up and down the vertical scroll bar.	The scrolling is smooth, without any jerkiness or rendering issues
3 Using your finger scroll left and right the horizontal scroll bar.	The scrolling is smooth, without any jerkiness or rendering issues

## C23635: Scrollbar in "about:preferences"

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

### Steps

Step	Expected Result
1 Open Firefox and visit this sites:  <a href="http://html5demos.com/offlineapp">http://html5demos.com/offlineapp</a> <a href="http://appcache-demo.s3-website-us-east-1.amazonaws.com/with-network/">http://appcache-demo.s3-website-us-east-1.amazonaws.com/with-network/</a> <a href="http://www.spritecow.com/">http://www.spritecow.com/</a> <a href="http://everytimezone.com/">http://everytimezone.com/</a> <a href="http://web.telegram.org/">http://web.telegram.org/</a> <a href="http://lagged.com/play/501/">http://lagged.com/play/501/</a>	You visited all sites.
2 In the URL bar type: about:preferences#advanced	about:preferences#advanced is opened.
3 Choose Network	In the "Offline Web Content and User Data" section, you see all the sites visited in step 1 and a scrollbar.
4 Click the scrollbar and drag it slowly, then use the finger for scrolling in the opposite direction.	The scroll is working.

## C23667: Zoom in or out

<b>Type</b> Other	<b>Priority</b> Medium	<b>Estimate</b> None	<b>References</b> None
<b>Automatable</b> No			

### Steps

	<b>Step</b>	<b>Expected Result</b>
1	Open Firefox and go to <a href="https://staktrace.com/resources/extras/spout/scroll-behavior.html">https://staktrace.com/resources/extras/spout/scroll-behavior.html</a>	The page is loaded.
2	Using the ctrl/cmd + mouse wheel zoom in or out the page.	The page is zoomed in or out.
3	Set the browser zoom to 300% and click on the middle of the scrollbar.	The page starts to scroll down in a smooth way.
4		

## C24213: Drag the scrollbar (bug 1346632)

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			
No			

### Steps

Step	Expected Result
1 Open Firefox.	Firefox is opened.
2 Go and visit: <a href="http://rotana.net/contact-us/">http://rotana.net/contact-us/</a> <a href="https://bug1346632.bmoattachments.org/attachment.cgi?id=8846410">https://bug1346632.bmoattachments.org/attachment.cgi?id=8846410</a>	Sites are loaded.
3 Click and drag the scrollbar up and down.	The scrollbar can be dragged.

### 3. Trackpad/Touchpad

#### C22869: Pages with SVG

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			
No			
<b>Steps</b>			
Step	<b>Expected Result</b>		
1 Open Firefox and go to: <a href="http://museumofwifi.com/">http://museumofwifi.com/</a> <a href="https://campaigns.f-secure.com/freedome/takecontrol/en_UK/">https://campaigns.f-secure.com/freedome/takecontrol/en_UK/</a> <a href="http://www.playmag.fr/heroesoftomorrow">http://www.playmag.fr/heroesoftomorrow</a> <a href="https://wetelo.com/">https://wetelo.com/</a>	Each site is opened correctly.		
2 Try to scroll up and down, the page, using the finger.	Scrolling is smooth, there are no rendering issues.		
3 Use the Menu to increase the zoom level and continue scrolling.	Zoom level is increased smoothly, there are no rendering issues, scrolling continues to be smooth.		
4 Zoom level is increased smoothly, there are no rendering issues, scrolling continues to be smooth	Zoom level is decreased smoothly, there are no rendering issues, scrolling continues to be smooth.		

## C22868: Click on the scrollbar (gdocs)

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

### Preconditions

The apz.drag.enabled preference needs to be enabled. On Nightly this is enabled

### Steps

Step	Expected Result
1 Open FF and go to <a href="https://docs.google.com/spreadsheets/d/1VCk6LAJ9g-EI9e61cDzoysHahMU6wc3Qo2bPvau6frY/edit#gid=0">https://docs.google.com/spreadsheets/d/1VCk6LAJ9g-EI9e61cDzoysHahMU6wc3Qo2bPvau6frY/edit#gid=0</a>	Page is open.
2 Click (press click continuously) in the middle of the scrollbar from the bottom of the window.	Scrollbar stops right where the mouse pointer is.
3 Click (press click continuously) in the middle of the scrollbar from the right side of the window.	Scrollbar stops right where the mouse pointer is.

## C22437: Drag the scrollbar

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

### Steps

	Step	Expected Result
1	Open FF and load a Mana Confluence page, such as <a href="https://mana.mozilla.org/wiki/display/PM/Quantum+Program">https://mana.mozilla.org/wiki/display/PM/Quantum+Program</a>	Mana page is opened.
2	Click the "Edit" link at the top of the page.	
3	Try to click and drag the page's scrollbar using your thumb.	The scroll bar thumb's color changes on mouse over, you can click and drag it.

## C22438: Fast scrolling up and down

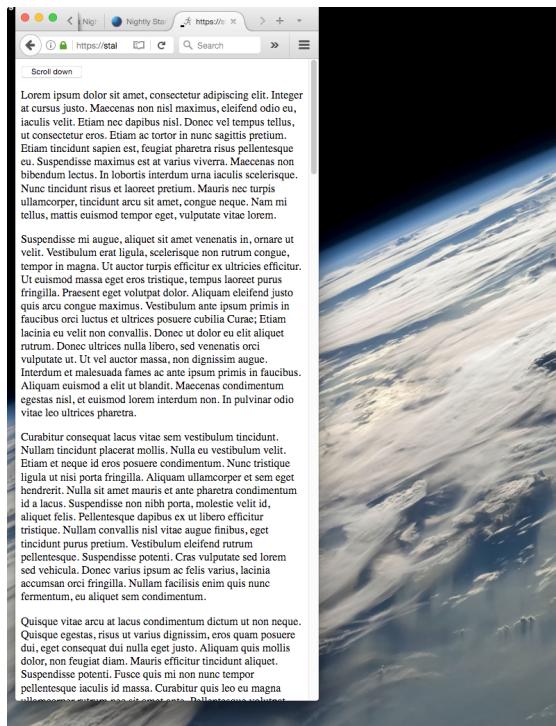

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

### Preconditions

The apz.drag.enabled preference needs to be enabled. On Nightly this is enabled

### Steps

Step	Expected Result
1 Open FF and go to <a href="https://staktrace.com/resources/extras/spout/scroll-behavior.html">https://staktrace.com/resources/extras/spout/scroll-behavior.html</a>	The page is opened.
2 Reduce the browser window size	You have the same window size like in the attached picture.

3

Drag the scrollbar and move it fast up and down.

The text is properly displayed, without any delay.

4

On the top of the text and on the bottom of it, you have 2 buttons: scroll down and scroll up  
Click on them

The text is properly displayed, without any delay.

## C22867: Scrolls work properly on Facebook

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			
No			

### Steps

Step	Expected Result
1 Open Firefox and go to facebook.com	Facebook.com is opened.
2 Scroll up and down on all frames that contain scrollbar. (chat list, friends activity list, messenger)	The scrolling is smooth, without any jerkiness or rendering issues.
3 Click on the scroll bar on all frames presented in step 2.	The scrollbar stops where the pointer is located at.

## C23602: Wheel scrolling interrupts scrollbar drag scrolling (make sure that this is not a regression from bug1253357 )

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			
No			

### Steps

Step	Expected Result
1 Open Firefox and go to <a href="https://archive.mozilla.org/pub/firefox/tinderbox-builds/mozilla-inbound-linux-debug/1482891457/mozilla-inbound_ubuntu32_vm-debug_test-gtest-bm07-tests1-linux32-build277.txt.gz">https://archive.mozilla.org/pub/firefox/tinderbox-builds/mozilla-inbound-linux-debug/1482891457/mozilla-inbound_ubuntu32_vm-debug_test-gtest-bm07-tests1-linux32-build277.txt.gz</a>	The page is open.
2 Start dragging the scrollbar.	The scrollbar is dragged.
3 Do a two-finger swipe to wheel-scroll.	This interrupts the scrollbar-drag and when you continue your initial drag it continues the scroll.

## C23608: PDF file

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			
No			

### Steps

	Step	Expected Result
1	Launch Firefox.	Firefox is successfully launched.
2	Go to <a href="http://conorlastowka.com/book/CitationNeededBook-Sample.pdf">http://conorlastowka.com/book/CitationNeededBook-Sample.pdf</a>	The website is successfully loaded.
3	Scroll up and down using the trackpad/touchpad.	The scrolling is smooth, without any jerkiness or rendering issues.
4		

## C23611: Scroll on Google Docs.

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

### Preconditions

The apz.drag.enabled preference needs to be enabled. On Nightly this is enabled

### Steps

Step	Expected Result
1 Open Firefox and go to <a href="https://docs.google.com/spreadsheets/d/1VCk6LAJ9g-El9e61cDzoysHahMU6wc3Qo2bPvau6frY/edit#gid=0">https://docs.google.com/spreadsheets/d/1VCk6LAJ9g-El9e61cDzoysHahMU6wc3Qo2bPvau6frY/edit#gid=0</a>	The Google Spreadsheet is opened.
2 Using the trackpad/touchpad scroll up and down the vertical scroll bar.	The scrolling is smooth, without any jerkiness or rendering issues
3 Using the trackpad/touchpad scroll left and right the horizontal scroll bar.	The scrolling is smooth, without any jerkiness or rendering issues

## C23634: Scrollbar in "about:preferences"

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			

### Steps

Step	Expected Result
1 Open Firefox and visit this sites:  <a href="http://html5demos.com/offlineapp">http://html5demos.com/offlineapp</a> <a href="http://appcache-demo.s3-website-us-east-1.amazonaws.com/with-network/">http://appcache-demo.s3-website-us-east-1.amazonaws.com/with-network/</a> <a href="http://www.spritecow.com/">http://www.spritecow.com/</a> <a href="http://everytimezone.com/">http://everytimezone.com/</a> <a href="http://web.telegram.org/">http://web.telegram.org/</a> <a href="http://lagged.com/play/501/">http://lagged.com/play/501/</a>	You visited all sites.
2 In the URL bar type: about:preferences#advanced	about:preferences#advanced is opened.
3 Choose Network	In the "Offline Web Content and User Data" section, you see all the sites visited in step 1 and a scrollbar.
4 Click the scrollbar and drag it slowly, then use the trackpad/touchpad for scrolling in the opposite direction.	The scroll is working.

## C23668: Zoom in or out

<b>Type</b> Other	<b>Priority</b> Medium	<b>Estimate</b> None	<b>References</b> None
<b>Automatable</b> No			

### Steps

	<b>Step</b>	<b>Expected Result</b>
1	Open Firefox and go to <a href="https://staktrace.com/resources/extras/spout/scroll-behavior.html">https://staktrace.com/resources/extras/spout/scroll-behavior.html</a>	The page is loaded.
2	Using the ctrl/cmd + trackpad/touchpad zoom in or out the page.	The page is zoomed in or out.
3	Set the browser zoom to 300% and click on the middle of the scrollbar.	The page starts to scroll down in a smooth way.
4		

## C24214: Drag the scrollbar (bug 1346632)

Type	Priority	Estimate	References
Other	Medium	None	None
<b>Automatable</b>			
No			

### Steps

Step	Expected Result
1 Open Firefox.	Firefox is opened.
2 Go and visit: <a href="http://rotana.net/contact-us/">http://rotana.net/contact-us/</a> <a href="https://bug1346632.bmoattachments.org/attachment.cgi?id=8846410">https://bug1346632.bmoattachments.org/attachment.cgi?id=8846410</a>	Sites are loaded.
3 Click and drag the scrollbar up and down.	The scrollbar can be dragged.
