

Days in the past are in shadow

Today is highlighted with a box

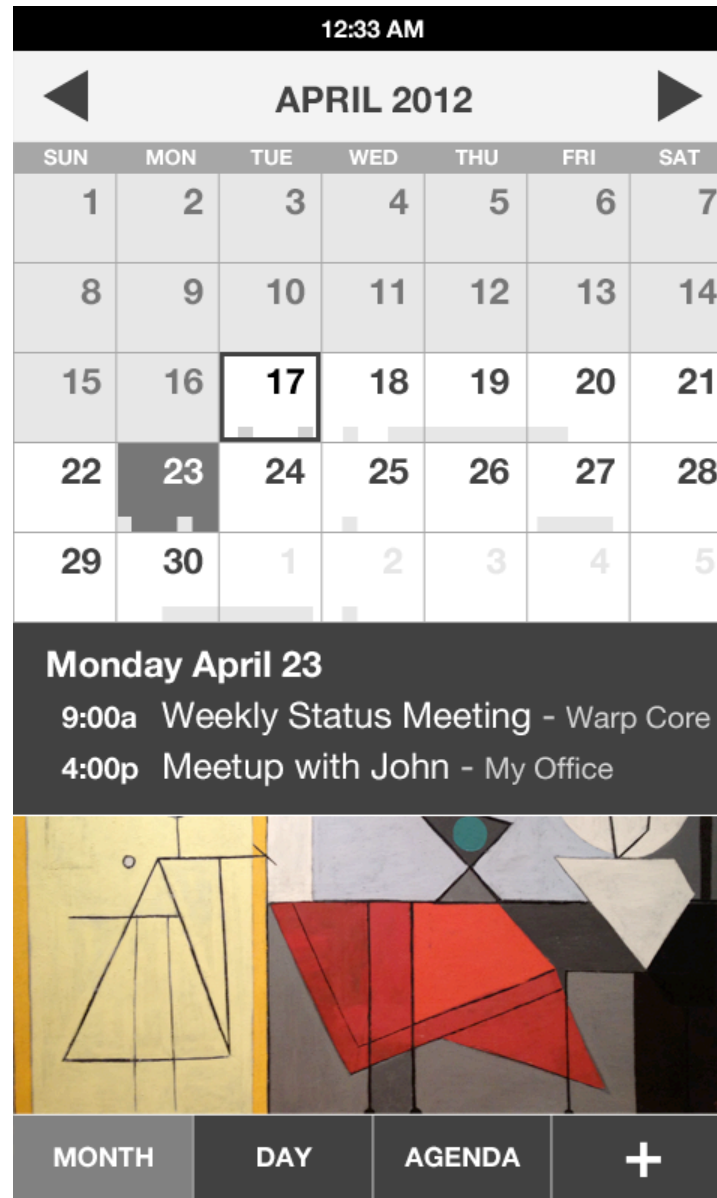

Selected day is highlighted

Tap on a day to open Day view

Show all events on selected day. Tap to open Day view

If you have lots of events, the picture will be covered up

Tapping [Month] again will take you to current month

Busy bars represent approximately when during the day you are busy at a glance

Show your own photos or subscribe to photo/art themes

[+] Add new event

# MONTH VIEW with PHOTO

Just show the whole picture if the selected day has no events

12:33 AM

◀ APRIL 2012 ▶

SUN	MON	TUE	WED	THU	FRI	SAT
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	<b>17</b>	18	19	20	21

Paris

**Monday April 23, 2012**

FROM 10 AM TO 11 AM  All Day

Josh, Patryk, Larissa, Casey, Frank

Weekly team meeting for the B2G UX team. Please be ready to present your designs for this week.

Tap on fields to start editing

Tap on Day and Hour boxes to change them. Default to today and the next hour from now.

Invite field grows as necessary

Swipe to see more notes if full

This design makes the event very easy to read because it only shows the event data without cluttering up the UI with labels and such.

There also are no read-only and edit modes to make it very quick to make changes with a tap.

### SELECT EVENT DATE

This is the exact same UI as in Month view that shows today highlighted and busy timeline overview bar to give you a bit more information for selecting dates.
