EDIT - EXPOSURE

Page	9 of 13
Status	DRAFT
Date	June 10, 2012

Slider to adjust up +3 to -3 stops.

This should retain photo contrast while shifting the mid tonal values brighter or darker.

Should "snap" on 0 to make it easy to reset exposure

EDIT - CROP

Page	10 of 13
Status	DRAFT
Date	June 10, 2012

Drag handles to crop
Photo resizes when you let go

Pinch to zoom

If you've cropped in too much, then zoom out to resize the photo again

Pan photo to reposition

P2

Select aspect ratio lock, default is Freeform

Tap to unselect all to choose no cropping

EDIT - EFFECTS

Page	11 of 13
Status	DRAFT
